

120VAC SURGE PROTECTION

The **DOT-10** is a 120VAC surge protector designed to protect traffic signal flashers. The unit is designed to conserve cabinet space and is epoxy encapsulated to eliminate moisture contamination.

IMG2-03S

Performance Capabilities:

Peak Current @ 8 x 20us waveform.....	15kA
Clamp Voltage	212 Volts
Technology	MOV Solid State
Response Time	< 5ns
Energy Handling	220 joules
Continuous AC Voltage.....	130 VAC RMS
Connections	stud (s.s. #10:32)
Operation Temperature	-40C to +85C
Dimensions	1.5" x 2.0" x 1.0"

Dimensions:
